

AB5 & AB9 BASE JACKS

Delta have been renowned manufacturers of Scaffold Base Jacks for many years and supply several types, all made using a “roll threading” technique which doesn’t cut material away and therefore maintains a high level of strength. Delta Base Jacks are compatible with all system scaffolds.

AB5 & AB9 Base Jacks have a 6 tonne load rating and are used in a variety of applications as a means to adjust a 48.3mm tube, these include:

- Scaffolding
- Underpinning
- Shoring
- Staging
- Exhibition Stands
