

EVENTMESH/Shade Netting

Our olive green shade netting will block 90% of sunlight. It is 130gsm, is made from medium weight high density polyethylene (HDPE) knitted net with UV additives.

It has reinforced edges on both sides, and will not tear or fray. Our shade netting provides an excellent level of shade, and can also be used as windbreak netting or for garden screening.

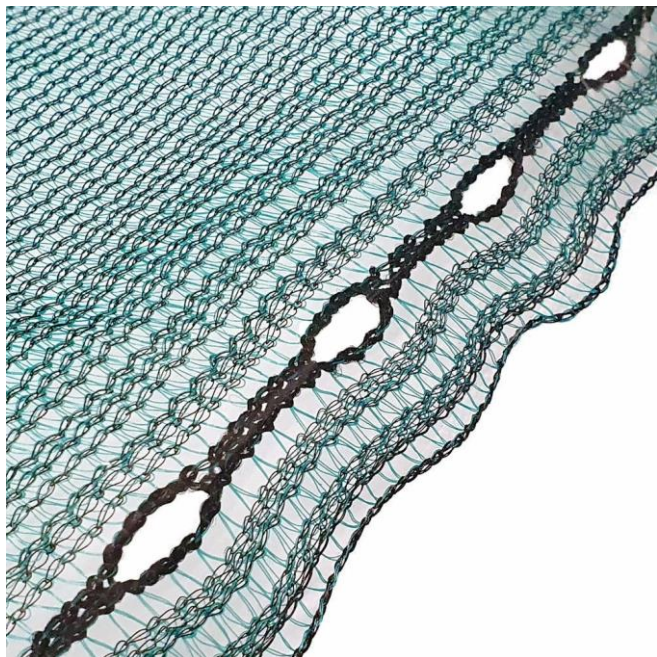

This roll has eyelets at the top and bottom of the netting.

Specification – 130gsm

Size – 1.83m x 25m (6kg), 1.83m x 50m (12kg)
