# FENCE NET standard 1,80x3,45m - Installation Sheet

1. Start with fixing both upper corners , by using 2 cable ties; 1 horizontal, 1 vertical
   Important : do not tighten cable ties yet!

2. Attach cable ties at the top side of the fence NET every 50 cm, pushing the cable tie through the net
   just below the reinforcement and tighten them

3. Attach cable ties at the sides and the bottom
   Important : do not tighten cable ties yet!

4. Tighten cable ties at the sides, one by one and equally on both sides. Than
   tighten the cable ties at the bottom, starting from the middle and working towards the sides
